

To get the files related to the ring matrix with 2 sites per cell (k-dependent):

1. ssh to your account on lin19
2. cd Programs (move to the directory where all the program files are stored)

space
3. cp -r /home/lecture/Programs/ring_2orbitals_kdependent .
  
space space space
4. ls (will list all the directories)
5. cd ring_2orbitals_kdependent (navigate into the new directory)

space
6. ls (will list a fortran program file, an executable in green color, and other files)
7. ./ring_2orbitals_k_dependent (execute the program)
